

WALL MOUNTED

NOCOSPRAY

WITH WALL CROSSING SYSTEM

The fixed and wall crossing aerial bio-disinfection device.

Manufactured in France by OxyPharm according to ISO 13485.

Wall mounted nocospray with wall crossing system is an aerial surface bio-disinfection device. It ensures aerial surface disinfection or disinsectisation when used along with our Nocolyse or Oxyphy ranges.

A dry fog allows a uniform treatment of every cm² of surfaces, as a preventive or curative measure.

It is particularly suitable for vehicles or cleanrooms or more generally for locations where the device must remain in one place, without storage constraints.

Treatment of volumes from 10 to 1,000 m³.

**EASY TO USE**

Easy adjustment for the volume of the room to be treated thanks to its touchpad.

**ECONOMICAL**

Very small amount of product required.

**GUARANTEED TIME SAVING**

No preparation required before treatment (except for cleaning) or after treatment (no need to wipe or ventilate).

COMPATIBILITY

- Disinfectant bottles (1 L): Nocolyse, Nocolyse+, Nocolyse Food, Nocolyse One Shot.
- Insecticide bottles (1 L): Oxyphy, Oxyphy+.

PRECAUTIONS FOR USE

Read all product information before use. Instructions for use are available on request by email: info@oxypharm.net

TECHNICAL CHARACTERISTICS

Dimensions (L x W x H cm)	49.4 x 30 x 34.2 cm
Empty weight	7.4 kg
Packaging	
- Dimensions (L x W x H cm)	38 x 28 x 30 cm
- Weight	9 kg
Maximal treatment volume	1,000 m ³
Turbine speed	22,000 rpm
Output speed of the mist	80 m/s
Average liquid flow rate	1,000 ml/h
Storage conditions	
- Temperature	0°C to 70°C
- Hygrometry	10% to 95%
Power	1000 W
Average particle size	5 µ
