

Premofix® TRF Radial Compression Device

The Premofix® TRF Closure band is a transparent compression band with semi-automatic syringe for a standardized aftercare of radial punctures.

- Designed for bilateral application
- Further developed properties for increased safety and practicability
- Larger compression pad covers more surface than similar devices
- Unique: only 2 sizes (XS -M [23cm] and L-XL [29cm]) fit every patient, even very slim wrists
- Transparent material for optimized handling and improved visibility
- Innovative inflation syringe for easy and standardized deflation
- Comfortable wearing through soft material and skin-friendly velcro
- Extra fixation band for syringe or connection valve
- User friendly: valve fits with standard syringes

Products	Art. No.	VE
Premofix® TRF-Band XS-M (23cm)	SM-TB-CSLS-TP	20 pieces
Premofix® TRF-Band L-XL (29cm)	SM-TB-CLLS-TP	20 pieces
